Notice on Suriname AtoN Academy and IALA World Wide Academy AtoN Manager Model Course to gain IALA Certification as Level 1 AtoN Manager

The Suriname AtoN Academy accredited by the Maritime Authority Suriname is a professional training academy which delivers AtoN training and capacity building.

FOR WHOM

The purpose of Level 1 AtoN Manager Model Course is to provide maritime organizations with a training course for personnel concerned with AtoN service provision the knowledge, skills and dedication will enable the participants to acquire the necessary level of competence; that is the ability to perform defined tasks or duties effectively. Participants who complete the course and its written tests of competency will be awarded an IALA Level 1 Certificate for Aids to Navigation Managers by Suriname AtoN Academy and IALA. The principle theoretical course covers the complete syllabus for Level 1 AtoN Managers set out in IALA Recommendation RO141(Training and certification of marine aids to navigation personnel) and Model Course L1.1.(Marine Aids to navigation manager training). It is one of a series of AtoN courses.

Previous sea experience is an advantage but is not a mandatory requirement as general nautical knowledge is included in Module 2.

GENERAL

The training will be provided by the **Suriname AtoN Academy**. This organization is part of the Maritime Authority Suriname (MAS). The MAS is responsible for hydrographic surveys and Aids to

Navigation in the rivers of Suriname in compliance with the IALA and IHO standards.

OBJECTIVES

The course aims to enable participants to gain an internationally recognized Aids to Navigation Certificate as an AtoN Manager.

The competencies to be gained include:

Module 1A: manage effectively their interaction with IALA and get satisfactory understanding of the role of the main international organizations governing and controlling safety of navigation;

Module 1B: a basic understanding of the nautical knowledge related to AtoN;

Module 1C: a basic understanding of the IALA Maritime Buoyage System and the ability to apply theoretical principles affecting the performance of the AtoN to the management;

Module 1D: the ability to understand maritime routing measures and the role of ship's Master and Navigator and their interaction with professional ship's Pilots.

Module 2A and 2B: the ability to apply both theoretical and practical principles effecting the safe and efficient operation of visual, audible and radio AtoN.

Module 2C: a basic understanding of the function of VTS as a vital service to safe navigation, commercial efficiency and the protection of the marine and coastal environment.

Module 2D: how AtoN structures and historic lighthouses can be protected and preserved as part of the effective delivery of AtoN service provision.

Module 2E: the ability to select the most appropriate source of electric power at Aton stations, maximize battery life and to provide protection against lightening.

Module 3A: the ability to apply internationally acceptable principles of navigation risk analysis to the effective management of AtoN service provision.

Module 3B: the ability to work effectively as part of an AtoN management team tasked with preparation and conduct of AtoN supply and /or maintenance contracts and projects whilst ensuring that the marine environment is properly preserved.

Major planning task: generate all major planning and management documents required by a fully competent national Authority . This task aim is to consolidate all the theoretical competencies gained during modules 1,2 and 3
Note that the full syllabus and levels of competence can be found in IALA Model Course 1.1- Marine Aids to Navigation- Manager Training, which is available, free of charge on the IALA website.

COURSE DELIVERY

Note: The course will be delivered by a IALA representative and experts endorsed by the Suriname AtoN Academy (SAA).

LANGUAGE

➤ English

COURSE DATES

The course starts **Monday 14th of October** and finishes on **Wednesday 6th of November 2019**. Most weekends are free, but private study is encouraged. It is recommended that all participants arrive in Paramaribo, Suriname by **18.00 PM on Sunday 13th of October 2019**.

ATTENDANCE

The course is targeted at those who will fulfill the role of Aids to Navigation managers in either the Competent Authorities or their Aids to Navigation service providers.

Twelve (12) places will be reserved for international participants. Among these places, at least 4 places will be reserved for participants from developing countries on the Academy's target list for capacity building.

The pre-qualification procedure will include a test of existing knowledge in the form of short questions requiring few word answers. The test is designed to assess existing knowledge and an understanding of English.

A recommended list of pre-course study material based on IALA Recommendation and Guidelines will be provided to selected participants.
